“ Dr. Bert Schreiber was a true gentleman. I enjoyed walking home from the synagogue with him after davening (services) . His conduct is a great role model for me. He prayed with great intent and knew the meaning of what he was saying.

He could educate you on travel, with great stories on parts of the world I knew or some I may never see.

Bert always showed great kindness to my wife Lea and daughter Reut, and me and to my father of blessed memory, and my mom and brother.

May his family find comfort from Hashem at this time. Baruch Dayan Ha-Emet.

“ Prof.Schreiber taught us MAT 7700 Advanced Probability Theory I. He graded homework in earnest. He was very nice to let all of us pass this hard course. I remember his attending all kinds of seminar in our department.

“ I was so sorry to learn of the passing of my old friend, Manny Schreiber, who was a wonderful and highly learned man, in both the limudei kodesh and secular worlds. I knew Manny well for about 2-3 years when he was a graduate student at the University of Washington (UW), completing his Ph.D. in mathematics, at the same time that I was also a UW Ph.D. graduate student, but in engineering.

He did me a great favor Jewishly, he taught me how to read the haftorah with the proper trop, in this case for my aufruf. For my Bar Mitzvah in Brooklyn I had learned the haftorah using a contrived system which wasn't transferrable to any other haftorah without special notes. Manny first taught me the actual haftorah notes, so

that to this day I can read any haftorah with that knowledge. In turn, I did him a favor by driving him to school for about a year and a half, until he completed his Ph.D., since I lived nearby the apartment of Manny and Rita, and I had a car and a parking space at the UW.

After he graduated and they moved to Detroit, I would see Manny on a number of occasions when he and Rita would visit Seattle, and I certainly recall their coming out here more than 30 years ago for the funeral of Manny's beloved father, Isidore, which I attended. Manny's exuberance was always noteworthy; he had something to say on so many topics, and he infused all of his comments with his strongly-held feelings, but he always accompanied them with his infectious smile.

I remember being a little of envious of him and other professors whom I knew, since they were always able to travel abroad to present papers. I was not permitted by my company to attend foreign conferences and give papers because I worked in industry which had a more restrictive environment compared to that in a university. Manny spoke to me about the unusual places around the world where he had attended these conferences and I enjoyed hearing about those experiences.

May his memory be for a blessing to the entire family,

“ Avi and Family,
We were saddened to hear about the passing of your dad.
May his name be an abiding blessing. Keep his memories close and he will be with you forever. Hoping the sun shines for your family soon as you celebrate his glorious life.

“ I will always remember Bert as the friendliest and the most welcoming member of the math department when I joined as new faculty. He was a Functional Analyst by training with an affinity for Probability. You could always count on him to attend the Probability & Statistics seminar and make discerning comments or ask pertinent questions about the work presented. I will miss him in the department. My deepest condolences to his family.

“ It is very, very sad that Bert passed away...He was an exceptional human being, an outstanding mathematician, and a dear friend. He was the one who hired me as the chair of mathematics at Wayne State, and we soon became close family friends.

Bert was a very kind, warm, and active person. He was interested in everything and helped everybody. He created a unique, big, loving family, and he was loved by so many people. For us he was surely a role model.

Our sincere condolences go to Rita, their 4 children, great many grandchildren and great-grandchildren. We will always remember Bert and will pray for his family.

“ Bert was my dear friend, a mentor and a father figure to me. He and Rita adopted us when we moved to Metro Detroit from Germany 21 years ago. His passing is a loss to our department, to the Jewish community, and especially to my family.

Bert was a gadol.

“ I am so sorry to learn of Dr. Schreiber's passing. He was always a kind and supportive person. He would consistently support the student seminar where he would keep the speakers on their toes with his thought provoking questions. However, I would say that my fondest memory is when I last spoke to him in his office, and he let me know that he considered me and my husband, Carlos, as his friends. Not colleagues, but friends. I will miss him.

“ I can't remember a family simcha from the past, nor imagine one in the future, without Manny's beaming smile, freilach dancing, and his ever-present camera. From the time I was a child, whenever I had a conversation with Manny, he made me feel that he really cared about what I had to say. He took to heart the mantra "family first." Our branch of the family will miss him deeply.

“ Bert always greeted everyone with a smile and a hello that contained a bit of a chuckle. I remember he--years back--put a photo of ol' Mack Hall on his office door, after the tear-down, so I knew he was sentimental. So groovy. I assume his 'Butterfly Curve' page is still on his office door, so I knew he loved his subject. So cool. And there might still be another page on his office door, with words to the effect of "Please vacuum my office. Thank you. (And then please remove this sign when you lock up.)", so I knew he had a sense of humor. So appreciated.

I shall miss you, Dr. Schreiber.

My condolences to all his family and friends, to all his near and dear ones.

“ Bert was exceptionally kind and personable. I enjoyed listening to his stories about the department and his time as Dept. Chair. I always remember seeing him in the Faculty Lounge chatting with that day's speaker or conversing with colleagues. My condolences to his family and close friends. May they find solace in the memories they have.

“ Dr. Bert Schreiber was a wonderful man and member of the Southfield Community. I remember him over the years wether at YIOS, Akiva and Wayne State U. Always with a smile and upbeat attitude he would greet everyone. I remember his children, in particular Shani who won the Akiva Talent Contest in 1971. But most importantly the devoted chessed he did for my father and my mother wheeling them to shul every Shabbos morning. I was immensely impressed with his example of chessed. May his entire family be comforted among the mourners of Israel.
