Comments

“ I grew up across the street from Holly. As a kid, I think I drove her crazy in a good way. Riding my bike up and down the drive way and side walk. She use to give me cookies and something to drink during the summer. She was a good neighbor and friend. I will miss her. I am saddened by her leaving us, but knowing she is with the Lord makes me smile. She will always be in our hearts.

“ My sister was a wonderful person, a “mensch”. She survived polio as a child but was left with a partial facial paralysis which masked her inner beauty. Our world is diminished today because Molly is not there. Molly has always been there. As an older sister she was always there for me. She was there during the depression when she worked to help support our family. She was there for her children and husband. She was there to take care of her husband when he was seriously ill and handicapped. She was there when someone needed to take in her widowed and ill mother in law. She was there for her grandchildren who could always find comfort, love, understanding and encouragement from “granny”. She was there when she needed to re-enter the work force after many years as a home maker. She was there for many patients , coworkers and doctors during her long career with Dr Lloyd Paul.

I miss my loving sister. I am unable to attend the funeral. My deepest condolences especially to Harvey who was "there" for her.
