Tribute Wall

“ ABE, I have the best memories of you. When I mention your name my heart fills up with love, you always showed your love towards me and my brother. Your love was soooo amazing that I have tears in my eyes now. I can smell you, as if you are standing by my side right now! You always came to visit us and hugged us with all your heart. I remember you so clean and shiny and always laughing. I loved it when you called me “Debbie Smebbie” (I am crying again). I remember every detail of you! I loved those moments you shared with me as a child. Rest in peace uncle AB.

Dear uncle AB,

I remember you since I was a child.

You would come to visit us on Tabor St. in LA (always driving a Cadillac for as far as I can remember), you would pick me up in your arms, turn me around and bite my Tush as you would say, claiming it was a camel that bit me – not you.

Don't think I didn't know for one dull moment that it was really you !!!

One day you said you're too old pick me up anymore.

I guess it was just a nice way of you to say that I was getting too heavy.

I knew deep inside that this ceremony won't last forever.

After I moved to Israel with my Mom, I would come every summer to the US to visit my Dad.

I remember how you would make a special effort to come to my dad's house every now and then, and take my sister and me out for the day.

We would go some times to your home but most of the times to your favourite restaurant - Delmonico's.

And what a treat that was for us!

You were always so cheerful and happy when we met, even many years later.

This picture was taken over 20 years ago when I was traveling the USA after my military service in the Israeli navy.

I remember you telling me how you support Israel and how proud you were to have worked for a company that supported Israel military effort.

I have very fond memories of you – and they will last for as long as I

live.

*Thank you for all your love and kindness,
May your soul rest in peace.*

Aryeh
