“ *My deepest condolences in the loss of Alex. He was a very kind and
caring individual. Alex worked at the therapy establishment I went to
— the looked out for each person there. He even would watch for
you as soon as you would get out of your car to make sure you got
started on time. I always looked forward to seeing and speaking
with Alex at each appointment. I will always have good memories of
Alex. RIP Alex.*

“ My deepest condolences to the entire family of my friend & former co-worker Alex. He was always, always a dedicated worker, arriving in the darkness of every morning before anyone else arrived. He was so generous, & patients loved him! It seemed that he knew enough of multiple languages to hold a conversation with any patient who came through the door speaking English as a second language. Not only his talent for languages was impressive, but his memory capacity was unlike any I've encountered. He could remember the tiniest details of patients who returned for care even years later. Alex's light shone bright in this world, & he leaves us all better for having known him.
