DB

“ I worked with Don back in 1976.
I was a last resort as the other electricians left him without help to bring the runway lights up to the new tower 5 stories higher.
I told that wonderful man I would not leave him till all connection's were complete.
I worked with him over 35 hours. No breaks till everything was functional for the safety of him and the air traffic there at Detroit Metro Airport.
I have wrtten an account that you may have if you contact me. Davi
