AW

“ We met Matthew and Estella when we returned from the military in 1980. My parents and Matthew’s parents were good friends which is how we came to know them. Although we lived in Pennsylvania Matthew called us on a regular basis over the years and always wanted to know about our family. We were sad when they couldn’t make it to our son Arthur’s wedding In 2017. We did not know the extent of his illness and and will miss his kindness and caring. May he Rest In Peace. Anita and Stephen Winer

DO

“ Estella and Family, Please accept my deepest condolences for your family's loss. I met Dr. Burman over 35 years ago. I was a young 22 year old man who just had an severe eye injury. Scared and in desperate need of immediate surgical care, Dr. Burman rescued my situation with compassion and direct action which saved my eye. Years of office visits included more care, laughter, including repairing some of the office equipment together and discussions of family, life and Business. In many ways I have him to thank for much of my success in Business and in life. He was a great mentor and I am truly saddened by his passing. His memory will always live on in my family as my "Hero Doctor" and good friend. Bless you and your family,
Don Opland

AM

“ Estella...I am so sorry for you and your family’s loss. Matt and I go back a long way from our residency when I was a junior resident to him. It was a very difficult time for me in my personal life and he was incredibly kind to me. He and I always had a special bond. I will never forget when I ran for President of the Michigan State Medical Society when Matt came from Shul to vote for me on Shabbat and then went back to Shul. I was so deeply touched by him for doing this. Even though I am a Reform Jew, he and I had as practicing Jews, we the same respect for the Holy One as well as the sanctity of Shabbat. He helped propel me in a very close election. I have never forgotten this tremendous act of friendship when you have to balance your beliefs versus your religious beliefs to do what you believe is morally correct. I was always 100% behind him when he had some other problems that will remain nameless in this time of grief. I never told him what I did quietly and secretly because of my belief in him as a person. I had the utmost respect for him as a colleague. I also had the honor to have met his father so long ago. Whenever we would see one another at a meeting, we would absolutely give each other public hugs and kisses because of this mutual respect. Even though I retired recently, I will truly miss Matt on so many levels. I truly share your sadness at this trying time. May his name be blessed for eternity. With your permission and only with your permission on our Temple’s Kaddish list to help keep his name alive in perpetuity. I think it only fitting he be interned in Israel.

With much sadness and great admiration and love,

Alan Mindlin MD
