“ Eddy dear Eddy to you and your family John and I send compassionate condolences.

*But, what I really want to shout out to you Eddy is that a woman could not have asked for a more wonderful and loving life mate, husband, friend, companion, supporter than you were to Elaine.*

*Your relationship and marriage truly was an everlasting 'love affair!' How happy and fulfilled you made one another. How each of you helped the other reach their personal excellence. And, how you shared yourselves with us.*

*John and I hope these memories will sustain and strengthen you.*

*With respect, support and love, Norine & John Zimmer*

“ I am so saddened by Elaine's death Eddy. Every memory I have to share from when we were in high school together to this minute would have to reflect laughter, good times and loving support. Elaine and I were sister friends tied to one another's heart and soul.

*In all ways, her art was the picture of her soul filled with gentle grace, strength, compassion and humor.*

*I hope you find peace in the gorgeous life you and she created and mostly, in the most perfect husband and friend any man could be. How lucky you both were. Norine Zimmer*

“ I was so sad to hear of Elaine's death. There will be a void of fun and laughter and talent in the world. I have some of her art work and I still love them. such a talent and good heart. Life is not always fair and she was one of a kind. My love to the boy's and you Eddy. I wish you strength and good memories

“ Earlier today we had our own mini-memorial to you, Elaine. It included a review of over 500 of your works, published in book form a few years ago. You spoke to us - yet. Your paintings, expressed in relatively simple lines and colors, convey a world of meaning. The message is love- love of life, love of children, love of humans of all shapes, sizes, and ages, love of animals, and love of love. We still hear you Elaine.

*Edith and Joe Bookstein*

*to Dr. Treisman I don't know if you will remember me but I have never ever forgotten you. What you did for Alton will always stay in my heart and mind. We never got to celebrate a Chinese dinner with the both of you because the night you and Elaine were having dinner in a Chinese restaurant your service called you to come and see Alton. As it turned out you were in surgery for 11 hours with him and you removed his small intestine that night along with many other surgeries throughout his lifetime. He passed 4 yrs ago but thanks to you, Dr. Maas, Dr. Berman and Dr. Zaffar you all did so much to keep him alive. I Hope that your beautiful wife did not suffer and that you were by her side for her last breath. I had the wonderful experience of lying in bed with Alton when the Dr. pulled the plug. There was no more that could be done. We had 50 years together but it was never enough. With much love, Sema Lazar*
