CS

“ I owe Harriet and Hal much gratitude for how my career turned out. They were like my second parents. They were my parents, Milford and Gloria Sobel’s, best friends and our families grew up together sharing holidays and birthdays in quaint Oak Park, Mich. When I completed my college years I told my loving parents that I intended to drive across the country and try and land a job in the film industry. They shared their concern to the Friedman’s who assured them somehow that I’d be ok but also called me to say a teacher friend of theirs from Cass Tech High had moved to LA recently and was working in film. I should give him a call and call I did. Dan had met me at a sound mixing facility where he was the lead film projectionist. He ran upstairs to work and I wandered the halls. There I met a music editor whose father ran a music editing company. Soon after, I was hired and the rest is history.

We’ve kept in touch through the years including visits with them at their various apts. She was always so kind and they were always so interested in what the latest project I was working on so they could look for it. I loved Harriet so much for her warmth, sincerity, phone calls and history with my parents and with us growing up. How wonderful a person she was. Our prayers go out to all the Friedman’s from the Sobel’s, Curt and Connie. How lucky we were to have her in our lives and for you to have her for so long in yours.

---
