“ Herman was selfless dedicating much of his life to the care of his mother. His nature was to be kind and caring. Herman was appreciative of even the smallest gesture made toward him. A wonderful friend of my mothers. For years they resided in the same building and looked after one another. For health reasons my mother moved to California to be closer to my brother and I. Despite the distance throughout the years their friendship continued. When my mother passed away in 2006 Herman and I became closer. I will miss Herman's thoughtfulness (never failing to send a birthday card) and our conversations. Rest in peace Herman which you so richly deserve.
