“ Our family have known Irina Grigoryevna for quite a long time - about 12 years. Therefore going to the piano lessons was like second home for us (as my son said once).

I was always saying to my children to listen to Irina Grigoryevna and cherish every lesson with her since she is one of the best teachers they would ever have. I always admired how Irina Grigoryevna was able to describe every part of the music in words. She understood and felt music very well.

Lessons with her were not only about playing piano - we used to go to the garden very often to check all the plants and flowers, to use the swing... I have a gooseberry plant that Irina Grigoryevna gave to me - it will always remind me of her.

She agreed to start teaching my daughter when she was 3 (something that Irina Grigoryevna had never done before). The lessons were fun with the use of different animal figurines representing the notes.

Irina Grigoryevna was not only teaching piano during the lessons - she was helping parents to teach manners and character in children which I am very grateful for.

The results of the piano lessons themselves were outstanding - the children won most of the competitions they participated in going to the State level.

Our family will always remember Irina Grigoryevna as a great teacher and a dear friend and will miss her.

Our deepest condolences to the family.
