HG

“ Jerry grew up on Curtis in Detroit. He attended Mumford High School and Wayne State University. Jerry and I became neighbors as we both lived on Curtis. Jerry and I were fraternity brothers, TEPS at Wayne State University. He had a deep love for hockey. Jerry was a good friend. He will be missed.

JD

We knew each other at winship elementary school and onward, enjoyed visiting at significant Mumford high school reunions and keeping in touch through phone calls until recently. He always had an interesting book to talk about, politics, cars, news about our lives- always something. Not hearing from him for longer than usual, I called and learned that he'd experienced a disorienting head injury from a fall. That, sadly, was the last time we spoke. For the record, I thought he was born in August 1944, with a birthday two months after mine. Jerry always talked about his fraternity brothers and how important a part of his life they were.
