“ Leonard and I were friends since the first grade and remained friends till the end. It has been several years and I think about him often he was like a family member.

“ Leonard was truly a wonderful person and friend. We used to be very good friends several years ago and over the years we sort of went separate ways. I remember being close friends with him during our junior high and high school days and he was a mensch and a very kind person. I will certainly always remember him and may he rest in peace.

“ One of Leonard's goals in life was to be of assistance and help people. He was a

tremendous support to me and many others. He had to struggle to overcome much

adversity in his own life. I will remember him for all the good things he did. I

hope he has found peace now.

“ Leonard Ashley was a friend of many and a kind soul who was helpful to many people in the 25 years I knew him. I was only able to find a couple of old photos from a camp out we went to in 1991. Leonard is in the middle. I will never forget you my friend.
