“ How to encapsulate 50 plus years of memories of my mom. One of my fondest memories is when I was a child in school, once a year we would play hookie and go to the movies and hop from one theater to the other watching all they were showing. Although we were very poor in the beginning, my mom would take me out to a restaurant once a month to teach me how to eat like a lady in a restaurant. Always Chinese food and I had a budget. How she loved her family. How she loved my kids. She was the best grandmother to my kids. I hope I am one tenth of the grandma to my grandkids as she was.

My mom loved music. Helen Ready I am woman hear me roar was her jam back in the day. Barbra Streisand and John Denver.

When she first started her career at Nabisco, she would sing a solo during their Christmas celebration. She was so proud of that and I was so proud of her and to be her daughter. What a career she had starting at Nabisco then moving to Airco BOC, NJ Transit and finally ADP where she became the very first woman director. During her time at ADP she and her team created the W-2 we use today. She was so accomplished and so well respected in the community. She also ran for town council and won when we lived in Parsippany. So so many memories I could go on and on.

Mom, thank you for instilling in my core family values and for all the little traditions I still do with my kids and grandkids. They will mean that much more now. I hope I made and continue to make you proud of me. Life will not be the same without you. I love you and will wait until you visit me to let me know you are okay and not suffering anymore. That you are with Grandma, Aunt Miriam, Erwin and Gene and my dad.

I remember hoping movies with Nanny when we were younger too! And then you did it with us too! Traditions carrying on through generations. We also did the once a year hookie from school too!

“ Nanny was such a beautiful soul.

I can close my eyes and remember her picking me up from school as a child for our weekly dinner dates and us singing 'Hit the Road Jack' in her Saturn as she sang 'no more no more no more no more' shaking her finger and dancing along to it. She would typically make her "famous" chicken wings and broccoli with melted cheese on it. I was always in charge of the salad because according to her I chopped it so beautifully. I always thought she was so funny for that because I didn't see anything special about how I chopped the ingredients.

I vividly remember our sleepovers where she would let me dress up in her fancy nightgowns and we would play princesses and dance and sing all night together.

I used to love to go to Nanny's house on Friday nights for Shabbat. She would make the best matzoh ball soup.

I was devastated when she moved to Florida when I was young but Nanny was determined to get my brother and I down there. We used to fly as unaccompanied minors to go see her and I remember thinking it was the coolest thing ever!

Nanny loved all things hearts! We had found this heart store in downtown Delray that we would go to everytime I visited. We would window shop in the store forever.

I can't forget to mention Nanny's QVC obsession. I would get calls all the time from her telling me about all of these cool things she found on QVC that I just had to have.

Every year on my birthday Nanny would call me at midnight to wish me a Happy Birthday. If I didn't answer, she would leave a message. It was not just a happy birthday but it was always her singing the song to me. She never forgot. Birthdays will never be the same.

Nothing will ever be the same. I wish Aspyn, my daughter got to meet Nanny in person but she did get to meet her through FaceTime. I wish Aspyn was able to hear all of Nanny's stories, she had the best ones. Ever since Nanny passed, Aspyn has asked to call Nanny in heaven. Every night we have been calling her and telling her how much we love her.

I could go on forever about the amazing woman my grandmother was.

I'm grateful for the family Nanny created and I promise to keep her legacy going. You are always with me Nanny. Until we meet again.

AS

We can't forget her love for the game mahjong and her love for Freddy (her giraffe) and all of his babies!

“ *Even though Nanny as Ally and Josh referred her as she may be gone physically but never will she be gone in memory to them. Times like making chicken with soy sauce still resonate in the kids memory bank . As for me she accepted me into the family with open arms through out the ups and downs but what is going to last in my memory bank is her devotion to her grand children and the commitment she made in making their lives better while she was alive and her desire to make there lives better when she would b gone.*

I found out today my Aunt Marlene has died. We had many laughs together and also shared some tears. She was a great help to me when my mother was sick and also after my father died.

My condolences to all who loved her.

May she Rest In Peace. ❤️

*With love,
Cheryl*

“ *So much more to her life then said in her obituary. She loved to sing and dance and engage others to join her. Her heart lit up being a grandmother. She loved doing life in only a way she could.*

Marlene loved the life she built with Bob in Florida when she became Marlene Kroner. She was so thrilled when they moved in their home and she made it homey. She loved working at Nabisco and bringing home boxes of cookies and she actually served them to me and Joanne on a silver tray in bed. She loved being a mom. As her career grew she was so proud of herself. She helped me plan a surprise visit to my parents in florida. She helped me again when my dad was ill while still in Florida and I flew out to help him and my mom. She was so happy to help others. She lived through many ups and downs in life and yet found the light through it all. She will be missed by family that she became part of when she married into it.
