“ *I just want to express my condolences to your family. I think of her over these many since both worked Dexter-Davison market. I was a 16 year old kid from Oak Park packing groceries as your mom worked the cash register back in 1966. Roseanne made such a strong impression on me. I believe that she was the first woman that I met who talked to me as an adult. At breaks between customers, she would speak her mind and her world view would made sense to me. I always loved packing for her because she was funny, feisty and loving.*

*May your mother's memory be for a blessing. She has been and will continue to be a blessing in my life. I can see her smile in my head even though it's been 60 years since I've seen it.*
