Steve's service was proper, and respectful of a man who deserved respect. Gary and Michael's eulogies gave me new stories about Steve that I was unaware of, and was pleased to hear. May Steve stay in my memory, and may he rest in peace. R

*That was a wonderful tribute to Steve. Gary and Michael did a great job of honouring their father and celebrating his life.
With much love to all the family

Mr. Friedman is now at rest and his legacy lives on through Mrs. Julie Friedman , Michael and Gary. It was a pleasure to meet Mr. S. Friedman for I remember him has a strong , silent , kind type. May God bless you all.

“ *I remember Steve from all the way back to Jr. High and High School. I talked to him a few times in years past. Steve was a great guy and I am sorry to hear of his passing.*

“ *Steve was a great friend and neighbor. A next door neighbor not only where we lived but also where we worked - we both worked for different companies that were located in the same Autodesk Building in Novi.*

We can never remember a time when Steve was down - he was always a positive/optimistic guy and that is the way we will remember him.

He certainly appreciated the love and support of his family, especially through his illness. He's left us much too soon. Our condolences go out to Julie, Gary and Michael.

“ I was very sorry to hear of Steve's passing. Steve was a good man, a good engineer, and a good friend. He had a wonderful sense of humor, a keen wit, and we found much to laugh about when we talked. I always felt better after our conversations.

Steve worked in an area we referred to as "The Cave". It was so secretive, we didn't even know who the customer was. The rest of us engineers were already working for the DOD, FBI, and NSA so there were not many more letters in the alphabet to go through..., one could only guess. Steve was good at his job and was well regarded and respected for his work.

Steve was up for about anything. When computer video games came into being, we set up two computers back to back in the engineering lab so we all could play a flying game against each other during our time off time. When we decided to have a company paintball game, Steve was enthusiastically in, even though he had never played paintball before, and he did good. When a few of us decided to try the martial art Aikido, Steve was there again.

I will miss him being in my life.

My condolences to Julie, Gary, and Michael in their great loss. A man dies twice, once when his physical body dies and once more when the last person who has memories of him dies. With that in mind, Steve will live on for many more years in my memory.

*With Love
Robert and Rhonda*
