“ I was great friends with Vic our last senior year. I have so many fun fond memories of our time together. I was just looking him up on Facebook to reconnect and to my shock saw he passed away. So sad for his son and family. He will always live in my fond memories of him and our crazy fun times together.

“ I worked with Vadim for 3 years , went multiple trips to plants. When Vadim is there it is always cheerful and stress less. Always smiling and willing to extend any help. Rest in Peace my friend.

“ I felt a personal loss. We worked together for 4 years and spend many many hours supporting each other at Methode Electronics. He was a true friend with a golden heart. Just spoke to him in early July. May his soul rest in Peace.
