“ There are so many memories that come to mind, when I think about who Vicki Bell was. The word that describes Vicki the most is Sassy. Vicki always wanted to look pretty whether we went out or stayed in, she always wanted to be picture perfect incase she met her boyfriend. I cared for Vicki for over 15yrs, not only was I her caregiver, but I was also her hairdresser, make-up artist, personal shopper, and personal stylist. It made my heart smile seeing the pictures that were posted, because I basically styled her for everyone. I could remember calling on my off days asking staff what she had on. Vicki was not only my client, she was family. My entire family knew who Vicki was. I'm going to miss hearing her call everyone "dear", "it's the truth dear", "can you find me a boyfriend dear", "thank you dear", and my all time favorite, "why do you think God gave me a second chance dear" my answer would always be, because he wasn't ready for you dear, well Vicki, God finally got ready for you DEAR❤️ Rest Well.

“ Vicki Ann Bell: Lover of KFC fried chicken, dogs, Carole King, and the color red. Vicki was sweet with a dash of sassy! I had the privilege of providing care for Vicki for just over 10 years. Although my role was a caregiver Vicki would always tell me “you’re not my caregiver, dear, I see you as my friend.” I was gifted with countless opportunities to take Vicki out and about to enjoy life. Whether it was brunch with her niece, Nicole, going to a local art fair, or going to Jazz Fest; wherever Vicki was she was sure to make quick friends with her friendly smile and all her questions she would ask. I recall fond memories of spending time with her on the deck enjoying the warm weather - even if it was waaaaayyy too hot outside she loved it because she was always cold! She enjoyed listening to the birds and I’m pretty sure I’ve heard Carole King’s album “Tapestry” close to a million times but she always loved it and sang along. Whenever I hear the song “You’ve got a friend” I will think of her and all the memories we shared together. She will be missed dearly.
With love, Emma V

“ Vicki bell is and was a beautiful person inside and out her amazing smile was so contagious. She would light up a room when she would go somewhere. She did demand a boyfriend or for me to help her find one she would ask me to help her go thru her pictures and find the best pics for her to show off. She was so cute.... she would get so excited to be able to talk to her family expecially her sister Ellen and going to Marla's house for the kids birthday party I would have to find the cutest outfit for her to wear so she would look nice and of course hopefully find a man... I loved vicki so much and I will miss her even more she was like family to me. May she be at peace now and rest. I love you vicki bell

“💜💙❤️ Today we lost my Aunt Vicki it's with great sadness that I write this as she was such an incredible and innocent soul who touched so many people! She was a wonderful aunt to Nicole and I and was the life of any family event and party! She always lit up the room with her contagious smile, and saw things in a different way. Vicki was such a positive person who hardly ever complained but always demanded that we find her a man even if he was 20 years younger.

My aunt Vicki had endured a brain injury and was crippled from the accident. Vicki lost most of memory and had to learn everything from the beginning. She needed to go through rehab to learn how to use your muscles again and to speak again which was difficult. Vicki was such a positive person and went through much therapy to regain her strength Vicki did not take her life for granted she was such a kindred spirit and so innocent. She may not have been the same as she was before, but this is how I knew my aunt Vicki. She loved going on lunch dates with Nicole and talking many hours with her on the phone. She was a wonderful aunt to Harper and Skylee and always asked me when I'm having another my answer 2 and I am through!

All of us were so grateful to have had the opportunity to go out with Vicki for her last birthday. That was the last day we would spend with her seeing her happy with family and friends that came there to be there just for her! Vicki didn't know how to be cruel or mean or negative in this crazy world we are now living. She carried herself with such grace and touched every person she met. She will always be remembered as the beautiful person she was! May you rest in peace and tell my sister and Bubby I love them!!! Xoxox Ellen Gittleman

CB

Beautiful tribute. Vicki was a member of our Oak Park High School class of 1975. Happily, she was able to attend reunions and greet classmates and we were always so happy to see her. She will be missed. Wishing condolences to her dear family and friends. Cindi Brody

*In spite of Vicki's medical difficulties, she always had a positive attitude. With a bright smile on her face she would always ask if we knew a nice man for her. She was a pure, kind soul who enjoyed group lunches and parties. It was a privilege and honor to be part of her life. May her memory be for a blessing.
